

Aksoy M, Wrenzycki C, Herrmann D, Niemann H: Oxidative stress induced changes of glutathione concentration in in vitro-produced bovine blastocysts. *Reprod Fertil Dev* 19, 187

Behr B, Hildebrandt TB, Kovaçs A, Rath D, Blottner S, Göritz F, Reid CE, Hermes R: A simple staining method to assess sperm viability and complete morphology under field conditions in rhinoceros and elephant. *Reprod Dom Anim* 42 (Suppl. 1), 3

Block J, Wrenzycki C, Herrmann D, Rodina TR, Niemann H, Ealy AD, Fischer-Brown AE, Hansen PJ: Effects of insulin-like growth factor-1 during culture on blastocyst mRNA abundance and survival in utero to day 14 of bovine embryos produced in vitro. *J Anim Sci* 85 (Suppl. 1), 531

Honnens Ä, Herzog K, Hadelers KG, Niemann H, Bollwein H: Plasma progesterone concentration, size and blood flow of the luteal gland in lactating and non lactating cows. *Reprod Dom Anim* 42 (Suppl. 1), 11

Hornen N, Kues WA, Lucas-Hahn A, Petersen B, Hassel P, Niemann H: Influence of donor cell differentiation on cloning efficiency in pigs. *Reprod Fertil Dev* 19, 140-141

Iqbal K, Kues WA, Carnwath JW, Niemann H: Gene knockdown of maternal- and embryonic-expressed green fluorescent protein in murine embryos by the injection of a short interfering RNA (siRNA). *Reprod Fertil Dev* 19, 191

Lechner S, Weber F, Rath D, Zerbe H: Chemotaxis of bovine neutrophils is inhibited by seminal plasma in vitro. *Reprod Dom Anim* 42 (Suppl. 2), 72

Lucas-Hahn A, Petersen B: Somatic cloning in farm animals: chance or risk? *Reprod Dom Anim* 42 (Suppl. 1), 9

Matthes K, Menke D, Koehler P, Niemann H, Brugge WR, Hochberger J: Feasibility of endoscopic transgastric (ETGN) and transvaginal nephrectomy (ETVN). *Gastrointest. Endoscopy* 65, AB290

Niemann H: Advances in the generation of multi-transgenic pigs by somatic nuclear transfer development. Proc. Seminar Kinki University, Wakayama, Japan

Niemann H: Blick in die züchterische Zukunft: Entwicklungen in der Biotechnologie. Proc. DGfZ Jahrestagung, V09

Niemann H: Embryonic and tissue specific stem cells: implications for biomedicine and veterinary sciences. Proc. Veterinary Science Day, Utrecht University, The Netherlands, p. 29-30

Niemann H, Herrmann D, Lucas-Hahn A, Kues W, Carnwath JW: Transcriptomic and epigenomic studies on bovine preimplantation embryos. Proc. of the 2nd Int. Meeting on Mammalian Embryogenomics, 17.-20.10.2007, p. 44

Niemann H, Petersen B, Kues WA, Lucas-Hahn A, Carnwath JW: Production of pigs with conditional transgenes for xenotransplantation. Proc. 6th Res. Conf. on Transgenic Animals, pp 18-19; and *Transgen Res* 16, 843-844

Niemann H, Petersen B, Kues WA, Lucas-Hahn A, Carnwath JW: Somatic cloning of multi-transgenic pigs for xenotransplantation. Proc. 10th Ann. Conf. of the Japanese Society for Xenotransplantation, pp. 24-27

Niemann H, Petersen B, Kues WA, Lucas-Hahn A, Carnwath JW: Xenotransplantation beim Schwein – Stand und Perspektiven. Proc. 3. Symposium „Neue Entwicklungen in der regenerativen Medizin“, Stuttgart, 22.-23.06.2007

Niemann H, Petersen B, Lemme E, Hornen N, Hassel P, Lucas-Hahn A: Highly efficient somatic cloning of multi-transgenic pigs. Proc. IETS Satellite Symposium "Progress in Somatic Cell Nuclear Transfer Technology", 12.-13.01.2007, Tsukuba, Japan, p. 39

Nowak-Imialek M, Kues W, Carnwath J, Niemann H: Reprogramming of somatic cells via fusion with mouse embryonic stem cells. *Reprod Dom Anim* 42 (Suppl. 1), 22

Parrilla I, Roca J, Martinez EA, Vazquez JM, Wrenzycki C, Rath D: Integration of puresperm[®] gradient centrifugation into a bovine IVF protocol using sex sorted spermatozoa. *Reprod Dom Anim* 42 (Suppl. 2), 99

Petersen B, Lucas-Hahn A, Herrmann D, Barg-Kues B, Kues WA, Schwinzer R, Niemann H: Generation of pigs transgenic for human thrombomodulin by somatic nuclear transfer. *Xenotransplantation* 14, 542

Petersen B, Lucas-Hahn A, Herrmann D, Kues WA, Carnwath JW, Ramackers W, Winkler M, Niemann H: Production of pigs transgenic for human hemeoxygenase-I. *Xenotransplantation* 14, 464

Petersen B, Lucas-Hahn A, Lemme E, Herrmann D, Barg-Kues B, Carnwath JW, Ramackers W, Schuettler W, Tiede A, Friedrich L, Schwinzer R, Winkler M, Niemann H: Production and characterization of pigs transgenic for human thrombomodulin. *Xenotransplantation* 14, 371

Petersen B, Lucas-Hahn A, Lemme E, Hornen N, Hassel P, Kues WA, Niemann H: Effective porcine somatic cloning. *Reprod Dom Anim* 42 (Suppl. 1), 23

Petersen B, Lucas-Hahn A, Lemme E, Hornen N, Hassel P, Niemann H: Preovulatory embryo transfer increases success of porcine somatic cloning. *Reprod Fertil Dev* 19, 155-156

Prost D, Honnens Ä, Niemann H, Bollwein H: Effects of a shortened proestrus on genital blood flow in cattle. *Reprod Dom Anim* 42 (Suppl. 1), 24-25

Racedo S, Herrmann D, Wrenzycki C, Salamone D, Niemann H: Effects of follicle size and stage of maturation on mRNA expression in bovine in vitro-matured oocytes. *Reprod Fertil Dev* 19, 187

Svarcova O, Maddox-Hyttel P, Niemann H, Hermann D, Rasmussen Z, Petrovicova I, Strejcek F, Laurincik J: Nucleolar development requires transcriptional activity during porcine embryonic genome activation. *Reprod Fertil Dev* 19, 120-121

Taylor U, Rath D, Zerbe H, Schuberth HJ: Influence of spermatozoa, seminal plasma and semen extender on the migration of porcine neutrophils in vivo and in vitro. *Reprod Dom Anim* 42 (Suppl. 2) 72

Zaraza J, Haderl KG, Korsawe K, Niemann H: Qualität und Entwicklungsfähigkeit von Kumulus-Oozyten-Komplexen bei prä- und peripuberalen Rindern nach ultraschallgeleiteter Follikelpunktion (Ovum pick-up). Proc. AET-d Celle, 21.-22.06.2007
